

## MEDIA ADVISORY

### GMAS C-27J PRESS BRIEFING

#### No Compromise

#### GMAS and C27-J: The Only Solution For Our Troops

The GMAS team will explain to media why the C-27J aircraft is the only solution for future military cargo transport needs. The briefing will take place on Tuesday, June 14 at the Finmeccanica Chalet # A384-391 at the Paris Air Show.

Global Military Aircraft Systems (GMAS) is a joint venture between Alenia North America, Inc. (a Finmeccanica company), and L-3 Communications' (NYSE:LLL) Integrated Systems subsidiary. The C-27J military transport aircraft is a leading contender for the U.S. Army's Future Cargo Aircraft (FCA) program.

The press briefing will include Bob Drewes, President of L-3 Integrated Systems, and Guiseppe Giordo, President and CEO of Alenia North America, Inc.

The plane will also be available for viewing on the tarmac outside the chalet throughout the show.
